WORK EXPERIENCE

CONTENT DEVELOPER

Atento / Bogotá, Colombia / August 2022 - Present

I perform the function of developing both in the Front-End, Back-End, Database areas, generating automation systems based on the needs of the users, pages were generated for attentive campaigns such as Colpatria, Davivienda, Falabella, among others, each one customized to the specific case, with its own designs and unique developments for the benefit of all, more than 20 internal systems for bank and telecommunications campaigns, improving response times

PRACTICAL STAGE

Clínica nueva / Bogotá, Colombia / January 2021 - July 2021

Three different systems are generated in the practical phase:

- Adverse Event Reporting System (SIREA-CN)
- Internal Statistical Reporting System for the new clinic (INDICATORS)
- Inventory Control System for Headquarters C.

Each system was developed from scratch and features a user-friendly design, functionality tailored to the system requirements and its respective database. User manuals, instructions, and technical manuals were also generated for each system developed.
